## ADOPT-A-DIG

The Adopt-a-Dig program creates a new partnership of discovery between you, our members, and the field researchers whose projects are rewriting the history of the rise of civilization.

With six active digs in Egypt, Israel, Syria, and Turkey, you now have the opportunity to partner with field projects.

As a dig “adopter”, you can make a commitment to fund the project of your choice at the level of your choice, enabling each of our excavations to have the predictable support base they need to make excavation plans.

In turn, dig directors will involve you more closely than ever before, integrating you into the fieldwork and discoveries they make each season.
